

Four Organs for those without organs

by James McKenzie

jpmckenzie@gmail.com

Keys:

Left-shift Z X C , . / Right-shift

Instructions:

1. Open the patch in Pd-extended.
2. Print a list of devices to the console with the **[print(** message at the upper left. Look in the console to find the keyboard device.
3. Select the index of the keyboard device (0-indexed, eg: 0 1 2 3...)
4. Check the box to turn on keyboard input
5. Organ #1 will load automatically. Click a different organ message to load another organ set.
6. Click the message to have Pd compute audio.

No Audio?

- Turn on compute audio in the Pd console
- Turn up device volume
- Check that the output device is set properly in audio settings. A system's normal output is "Built-in Output".
